

LEARNED SOCIETY
OF THE CZECH REPUBLIC

The Learned Society of the Czech Republic
cordially invites its members and guests to the fourth Bolzano Lecture

Prof. Reinhard Genzel

2020 Nobel Prize laureate

A Forty Year Journey

Evidence of the supermassive black hole
in the center of the Milky Way

Thursday **20 April 2023**, 2 p.m.

The Blue Hall of the Rectorate of the Charles University,
Celetná 20, Prague 1

The lecture is organized by the Learned Society of the Czech Republic
with the support of Karel Janeček.

German astrophysicist **Reinhard Genzel**
is co-director of the Max Planck Institute for
Extraterrestrial Physics, a professor at Ludwig
Maximilian University of Munich and an emeritus
professor at the University of California, Berkeley.

He was awarded the **2020 Nobel Prize
in Physics** for the discovery
of a supermassive black hole
in the centre of the Milky Way,
which he shared with Andrea Ghez
and Roger Penrose.
