Dear colleagues,

We have great respect for Russian science and all that it has contributed, and what you yourself contribute, to the world treasury of knowledge. That is why we welcome and highly appreciate [your brave stance](#) on the aggression unleashed by your country's leadership against Ukraine and its people. We stand with you and we wish that common sense and respect for international law prevail, as you have demanded from the representatives of your country, the Russian Federation.

With great admiration and assurance of our solidarity, on behalf of the Learned Society of the Czech Republic,

Pavel Jungwirth  
president of the Learned Society of the Czech Republic
